Manufacturer & Exporter of All kinds of wool, felt, industrial felt colour felt & its components.

About Us:

Wool felt manufacturers and suppliers based in Jaipur-India, Felt Manufacturing Company which was previously known as INDIAFELTS has a market experience of here plus decades and ever since, the company has been on a steady growth curve in the sphere of wool felt manufacturing.

Our company is firmly fixed on three pillars:

- **Quality Control**
- **Customer Satisfaction**
- **Competitive Pricing**

Customized manufacturing as per our customer requirement is our core competence and apart from that we manufacture wool felt as per different standards like IS1719, SAE, DIN, ASTM and BS 4046 etc... A one stop shop for a wide selection of compressed wool felt and felt products including wool felt rolls, sheets, washers, strips and colored wool felt with a wide and vibrant range of colors.

Our Goal:

To keep felting wool with craftsmanship and precision and make it universally affordable in an economically and ecologically friendly manner.

About Woolen Felt:

Woolen Felt is amongst the oldest fabric known to human kind. Created without the process of stitching, weaving, or knitting. Instead it is fabricated by the physically interlocking the fibers through a combination of mechanical force, moisture, and heat. Felt may consist of one or more classes of fibers, wool, reprocessed wool, and reused wool, with or without admixture with animal, vegetable, and synthetic fibers.

Characteristics of Woolen Felt:

- Strength Retention
- Wear resistant
- Partially Elastic
- Wicking capabilities
- Renewable and environmentally friendly resource
